It's Like Walking In the Dark

to drop in any place you see the sign "Jeweler" when your watch don't keep time and you want it put in such condition that it will. Not one in every ten can make more than a bluff at cleaning it. It ought to be cleaned, of course, but cleaning is the smallest item of all that goes toward making a watch keep time. There are many fine adjustments that may have become deranged, or if some of the delicate parts are badly worn, it requires the highest grade of skill in watchmaking to repair it so it will keep perfect time.

A watch made right here—cut from the raw material, pronounced by experts to be equal to anything they have ever seen in finish and workmanship,—that we have carried for over ten years will sustain our claim to being the only place in Maysville where you can have your watch put in perfect order, no matter what it needs.

BRADLEY!

Kentucky's Own Son for President.

BRADLEY'S CURRENCY PLATFORM.

"I am opposed to the free and unlimited coinage of silver, believing it would destroy all National property. The gold dollar is the best dollar, and I am in favor of making every other dollar equivalent to it in value. I am the friend of silver, and believe it can be best protected by holding its value in such bonds as will insure its parity with gold on a circulating medium."—W. O. BRADLEY.

THE LEDGER is advised that Nicholas county will instruct for Governor BRADLEY. The McKinley managers at home have repudiated the fight that is being made on Governor BRADLEY in this state, and very properly so. THE LEDGER's contention has always been that Major McKinley did not approve the vehement methods of his partisans in Kentucky. The fact is, that ninety-nine hundredths of the Bradley men in this state are McKinley men after BRADLEY is out of the race. Surely, therefore, the McKinley men ought to be generous enough to give Kentucky's Governor their indorsement by instructing for him in the County and District Conventions.

THE Frankfort correspondent of The Courier-Journal on Friday sent this to his paper:

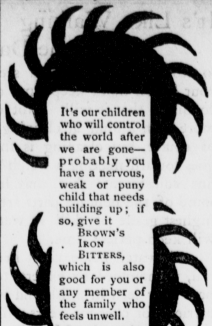

"Governor BRADLEY returned this evening from Louisville. He was in a good humor when he came, but was in an excellent humor about dark. A blue-uniformed messenger from the Western Union Telegraph office flitted into his office, left a little yellow paper and flitted out again. It was this little yellow paper that put the Executive in such a good humor. He read it over several times to himself and to such friends as C. W. Lyster, Adjutant General COLLIER, Ben Hill and others who dropped in.

"The little yellow paper was a telegram from the Chairman of the Republican Committee of New York. It told Governor BRADLEY to be of good cheer; that he stood a good chance to be the Republican nominee for President. This may mean a great deal. It may mean that if BRADLEY can outlive MORTON that he will get the vote of the Empire State."

Well, stranger things than that have happened—and what has happened may happen again. After all, a great many people may be mistaken in their choice of the band wagon.

The books of the Limestone Building Association are now open for subscription to the Fourteenth Series. Take stock in a good 40 per cent. investment. This is an easy way to buy a home and pay no rent. Call on H. C. Sharp, James E. Threlkeld or any of the Directors.

It will be an agreeable surprise to persons subject to attacks of bilious colic to learn that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. In many instances the attack may be prevented by taking this remedy as soon as the first symptoms of the disease appear. 25 and 50 cent bottles for sale by J. Jas. Wood, Drugist.

Governor Bradley Nails Some Lies Told by Louisville Papers.

STAND BY YOUR LEADER!

LOUISVILLE, April 24. A reporter for The Commercial Appeal Governor Bradley yesterday about the statement published in The Times to the effect that the alleged "McKinley people" here are engaged in sending out circulars, charging that the Governor is in a combine with Platt of New York and Quay of Pennsylvania to defeat McKinley.

Governor Bradley said that he had heard of this charge, but that he had no reason to believe that the statement in The Times was correct. However, he would answer the charge by saying that it was absolutely false from first to last, and that its circulation is a willful slander. If any Louisville Republicans are circulating such circulars as described in The Times, the Governor says they are guilty of most disreputable and cowardly political trickery, and deliberately giving currency to a lie, knowing that it is a lie.

The alleged "McKinley men" are bad yahoos in this state, and a great many, a few days ago, were clamoring for the Ohioan, have concluded that the very story of the future plot that are being told for the stimulation of the attempted war on Governor Bradley, need some corroborator. In other words, the office seeking contentment would like to know whether McKinley has authorized anybody to promise the patronage of the National Administration in case he succeeds. As a matter of fact, Governor McKinley's managers have written to Governor Bradley's friends repudiating the anti-Bradley fight in Kentucky that is being made under the pretense of helping McKinley.

The great majority of those who voted for Governor Bradley last year are loyal to him, and the only opposition is dwindling away as it becomes more and more apparent that Kentucky is going to stand squarely by her own splendid leader. The attempt to make it appear that Governor Bradley is opposing McKinley is not deceiving any McKinley men who are in his confidence. SENEX.

HE DECLINES.

Secretary Carlisle Not a Candidate for the Presidency.

His Letter to Chairman Long, of the Kentucky Democratic Committee.

The Secretary Has a Profound Interest in the Welfare of the Party, But Finds He Can Serve the Country Best by Staying in His Present Position.

WASHINGTON, April 6.—Secretary Carlisle Sunday evening gave out the following letter to Chairman Long, of the democratic state central committee of Kentucky, declining to enter the contest for the democratic nomination for the presidency: TREASURY DEPARTMENT, OFFICE OF THE SECRETARY. WASHINGTON, D. C., April 4, 1896. Chas. R. Long, Esq., chairman democratic state central committee, Louisville, Ky. MY DEAR SIR:—Your favor of March 10, in which you say in substance that many of my friends in Kentucky and elsewhere desire me to become a candidate before the approaching national democratic convention for nomination for the presidency, has been received, and is giving me to give "some authoritative or definite expression" upon the subject, was duly received and has been naturally considered.

Many communications upon the same subject and of similar import, have been received from friends in different parts of the country, and while very grateful for these numerous expressions of confidence and esteem upon the part of my democratic fellow citizens, I have not been able to reach the conclusion that the existing conditions require me to comply with their requirements by authorizing them to announce me as a candidate for the presidential nomination. While I feel a profound interest in the welfare of my party, I am much more concerned about its declaration of principles than in its choice of candidates, because, in my opinion, its failure or success at the election, as well as its capacity for useful service to the country in the future, will depend upon the wisdom and ability to take upon the public questions now engaging the attention of the people, and especially the questions affecting the monetary system of the country and the character and amount of taxation to be imposed on our citizens.

Its position upon these and other subjects had been agreed upon, and clearly and distinctly announced, the people ought to have confidence in selecting an acceptable candidate; and in order that its deliberations may be conducted as little as possible by the contentions of rival aspirants and their friends, I think my duty to the party will be best performed by declining to participate in a contest for the nomination.

The obligations assumed when I accepted my present official position require me to devote my entire time and attention to the public interests connected with the duties of my office, and to continue the discharge of my duty, as imposed upon me, to the best of my ability, and in such manner as will promote the true interests of the country; and if the opinion of my democratic fellow citizens and Kentucky my services entitle me to their commendation and approval, I would regard their indorsement of my public course as an ample reward for the little I have been able to accomplish in behalf of honest administration and a sound money system.

With many thanks for your kind letter, I am, very truly yours, J. G. CARLISLE.

THE X RAYS.

A Practical Test of Its Use in Surgery Made. PITTSBURGH, April 6.—What is claimed to be the first practical use of the x-ray in surgery in America was made Sunday evening in the homeopathic hospital and was successful in every particular. By means of photographing the foot of a seven-year-old child, it was ascertained, and in less than a minute after the first incision, the needle was found, placed exactly as in the photograph. The operation lasted 60 seconds.

While Rachel was running about a room five weeks ago her foot struck a needle, and about a quarter of an inch of the steel ran into the ball of the foot. Acute irritation set in and the foot swelled to twice its natural size. Frequent probrings were made, but the steel could not be located.

CONGRESSIONAL.

A Forecast of the Business During the Week.

The Appropriation Bills Will Take Precedence in the Senate.

The Dupont Case Still Before That Body—Rivers and Harbors Bill in the House—An Effort to Repeal the Abolition of the Compulsory Pilgrimage System.

WASHINGTON, April 6.—Appropriation bills will take precedence in the senate this week, the post-office bill, now under consideration, possibly requiring two more days before it can be passed; the Indian and naval bills to follow.

Mr. Morgan having given notice that he will take the floor on Tuesday to afford the senate in favor of his Pacific railroad bill, which gives the court of appeals of the District of Columbia jurisdiction in all foreclosure suits and similar proceedings that may be brought in connection with these roads.

Mr. Peffer will endeavor to press his motion for an investigation of the bond issue, and will stand in the way of appropriation bills.

Meanwhile the Dupont case is still before the senate and speeches yet to be delivered by Senators Gray, Brown, Chandler, Viles, Palmer and Burrows.

Mr. Viles has given notice that he will call up the extension of damages for sale bill. Senators Mantle and Teller desire to defend their course in preventing the taking up of the tariff bill.

The proposed treaty with Great Britain for the appointment of a commission for the consideration of damages growing out of the seizure of Canadian sealing vessels, still remains to be finally acted upon in executive session, the state department urging the senate to abandon its intention of amending the text of the convention as submitted.

The Cuban matter out of the way, Mr. Hooker, chairman of the committee on rivers and harbors, will make an effort to take up the bill reported by him on Friday and proceed with its consideration under suspension of the rules. It is not the intention, it is explained, to bring the house to finally dispose of it within the limited time allowed for discussion of a bill so taken up, but to give a reasonable time for its consideration, the determination of this period of "reasonable time" will necessarily be the subject of unanimous agreement, so that it is impossible to forecast now what it will.

Mr. Payne, chairman of the committee on merchant marine and fisheries, will ask consideration of the bill reported from his committee to abolish the compulsory pilgrimage system, which the river and harbor bill has proposed, and of these measures, together with the miscellaneous business coming up from day to day, it is expected, will occupy the time and attention of the house until the fortifications appropriation bill be reported to the house. It was stated Saturday that this would be ready the latter part of the week, and the appropriations committee desires that it shall be placed upon its passage as soon as copies of the bill and report have been printed.

ALEX. W. TERRELL.

United States Minister to Turkey, Arrives in New York.

NEW YORK, April 6.—Alexander W. Terrell, United States minister to Turkey, was a passenger on the Hamburg-American line steamer *Prinzess Alice*, which arrived Sunday from Mediterranean ports. Mr. Terrell seemed to be in perfect health and in perfectly good humor, but to all inquiries regarding his mission to this country he responded with the one phrase, "I've absolutely nothing to do here." He said he would tell everything to Secretary Olney whom he intends to meet in Washington Monday.

He was asked about the state of political affairs at Constantinople, the Armenian question and the doings of Miss Clara Barton, who departed some time ago on her mission of charity to the people who are said to be the victims of cruelty at the hands of the Kurds and Arabs, but he turned away from these interrogations. He mechanically repeated that there was nothing to be given out.

Mr. Terrell, it is said, would visit his ranch in Texas immediately after finishing the preliminaries of his mission to Washington.

Attempted to Kill His Child Then Succeeded.

H. H. HOLMES CONFESSES.

He Tells in Detail of the Many Murders He Has Committed. His Victims, He Claims, Were Twenty in All, Were Deliberately Planned. The Story Continued.

New York, April 6.—The World printed a Philadelphia dispatch, in which it says that H. H. Holmes, the greatest murderer of modern times, has made a confession.

In it he tells how and why he put to death no less than 20 men, women and children. He gives all the facts. He writes as calmly and coolly and remorselessly as he murdered. He neglects no detail. He even gives an account of six murders which he planned but was prevented from carrying out.

He describes in detail the murder of the Williams sisters, of Quinlan, the janitor of the Castle, who "knew too much," of Benjamin Piztel, the murderer for which he is to hang, and of the Piztel children.

Holmes announces himself as a professional murderer. Each of his murders was deliberately, carefully planned, and executed with calmness and precision. He has written about them as a great scientist would write of a series of valuable experiments.

He was a professional murderer. He had studied murder as a student. He pursued it to make a living, but also for his own sake. He used the whole of his very considerable brain power in planning and carrying forward very subtle murder plots—in devising means of killing human beings.

He was a professional murderer. He has "points with pride" to his work. He thinks he has fairly earned immortality and he could not die without letting the world know what a great man he has produced. He deliberately chose a career of crime when he was a farm-boy up in Vermont.

He attended medical colleges to equip himself for the taking of life, just as other men go to college to equip themselves for the saving of life. He was a student, in the ordinary sense of the word.

He was simply a monstrous, a criminal degenerate with a moral sense exactly inverted from that of the rest of the world.

PHILADELPHIA, April 6.—Sam'l Rotan, Holmes' confessor, Father Daily of the Church of Annunciation, Holmes' spiritual adviser, and confessor of his sins, of the county prison, all deny that there is a word of truth in the alleged confession.

WINTER WHEAT.

Reports From Over Five Hundred Townships in Indiana.

INDIANAPOLIS, Ind., April 6.—During the last two weeks the Indiana bureau of statistics has been collecting winter wheat statistics from the 1,016 townships in the state. Reports have been received from 593 townships, representing every county but one in the state, and the results show a decided falling off both in acreage and condition as compared with last year.

The general average for the state is 90.4 and the condition is 74.7. The principal cause given for the falling off in the condition of the crop is that many places have been hit by late frosts, and the growth of the young plant and caused it to enter the winter in a weak condition.

THE CONDITION

Of the Destitute Armenians is Most Deplorable.

Notwithstanding the Relief Work That Has Been Done in That Country.

The Entire Armenian Nation is Struggling for Existence—Whole Families Hungry and Scarcely Dressed Sleep on the Bare Ground at Night.

BOSTON, April 6.—From recent letters from Eastern Turkey it appears that the condition of the destitute in that section is most deplorable in spite of the relief work which has been done there. Recent writers state that almost the entire Armenian nation is struggling for existence under conditions the very contemplation of which almost makes one long for death.

In writing at some length upon this subject, an Armenian in Harpoot says: "Dread in rapid unbroken, snelling of stables so that the odor is almost unbearable, their eyes inflamed from the glare of the sun on the snow, they present a sight. Whole families, hungry and scantily clothed, sleep on the ground at night. In one place a man was seen to lie on his back, and sleep with his head on his hands. The people huddle together in corners seeking some protection from the cold."

"Such things exist in the cities and other lands, but here the misery is intensified by the rapidity of the transition. Many of the people were prosperous merchants a few months ago. And with their poverty they have other ills—chief of which is ever present fear—a constant apprehension that makes them start and tremble at every sound. In the long evenings they converse in whispered tones, and when they know are listening shall find out if they still use their native language, which has been forbidden."

INDIANAPOLIS, Ind., April 6.—Russell Harrison and Mrs. McKee, the son and daughter of Gen. Harrison, did not leave for New York Sunday to attend the wedding of the ex-president and Mrs. Dimmick and they will not be present at the ceremony.
